Portfolio: https://adharsh-chi.vercel.app/

Email: adharshu777@gmail.com
Mobile: +91-8714717587

Skills

Programming & Scripting: Python, SQL, YAML, Bash/Shell Scripting
Cloud Platforms: AWS (EC2, S3, RDS, IAM, VPC, EKS), Azure (AKS, ACR, VNet, Virtual Machine, Azure Monitor, Log Analytics)
Networking & Systems: Linux, Network Troubleshooting, SLO / SLA, Alert tuning, TCP/IP, OSI Model, Subnetting
DevOps & Infra as Code: Terraform, Ansible, Jenkins, GitHub Actions, Docker, Kubernetes, CI/CD, Helm, GitOps
Monitoring, Logging & Databases: Prometheus, Grafana, CloudWatch, Azure Monitor, ELK Stack
Security: Secrets Management, RBAC, IAM Policies, Network Security Groups, VPC Security
Soft Skills: Problem-solving under pressure, cross-team collaboration, Communication Skills, Operational Documentation & Discipline

Experience

Azure Data Engineer Intern - Infocreon Solution PVT LTD - Kochi — May 2025 – June 2025

- Built and managed end-to-end Azure data pipelines using Data Lake, ADF, and Databricks for ingestion, transformation, and ETL orchestration.
- Built **Power BI dashboards** to deliver actionable insights for business decisions.

Open Source Contributor – CNCF — December 2024 – September 2025

- Contributed to **cloud-native and DevOps projects** on GitHub, fixing issues, improving documentation, and enhancing CI/CD workflows.
- Collaborated with global dev communities, submitting PRs and enhancements to improve the project,

Jr. DevOps Engineer Intern - Infocreon Solution PVT LTD - Kochi — October 2025 - January 2026

- Managed deployment and maintenance of internal and client applications using Docker, Linux, and Digital Ocean, ensuring stable and **scalable environments**.
- Debugged production issues, configured Nginx, and **optimised CI/CD** workflows for backend-frontend integration and faster releases.

Projects

Prathidhwani Jobs Platform | GitHub — November 2025

- Containerised the application and deployed it on **Digital Ocean**, handling build failures, environment variables, networking, and server configuration.
- Implemented **CI/CD automation**, resolved deployment blockers, and improved overall reliability of the platform during testing and release cycles.

Tech Stack: Digital Ocean Apps · GitHub Actions · Nginx · Environment Management

Civic Issue Reporter | GitOps Platform with Argo CD | GitHub — April 2026

- Built and containerised a full-stack application using Docker and deployed it on Azure Kubernetes Service (AKS); managed scalable deployments using Kubernetes and Helm
- Implemented GitOps-based deployment using ArgoCD to sync Git changes with the cluster state
- Automated build and image pipeline using GitHub Actions to push Docker images to (ACR), enabling CI/CD WF

Tech Stack: Kubernetes (EKS) · Docker · Helm · ArgoCD · GitHub Actions · Elastic Container Registry (ECR) · GitOps · React · Node.js

Production-Grade DevOps Microservices Platform | GitHub — February 2026

- Designed and deployed a Kubernetes-based microservices platform using FastAPI and Docker, validating zero-downtime releases via **Blue-Green and Canary deployments** with **<1%** transient error rate during traffic switching
- Automated CI/CD pipelines with GitHub Actions and validated **zero-downtime** deployments using **k6** load testing **(200–500 users)** with latency and error monitoring via Prometheus and Grafana

Tech Stack: Python · FastAPI · Docker · Kubernetes · GitHub Actions · Prometheus · Grafana. K6

Certification

- Azure 900-Microsoft Azure Fundamentals – Microsoft — October 2025
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle — September 2025
- IBM DevOps and Software Engineering Professional Certificate - IBM — September 2025
- Azure 205-Microsoft Azure Developer Associate – Microsoft — November 2025

Achievements

PGDM Platform Validated **zero-downtime** deployments with **<1% deployment-time errors** in Kubernetes. — September 2025

PJP projects Cut deployment failures by **60%** through containerisation and environment fixes on Digital Ocean. — November 2025

Education

Lovely Professional University — Punjab, India
B.Tech in Computer Science; ***CGPA: 7.47*** — *Since September 2022*
